

Attending Physician Statement (APS) — Snippet (Mock)

PCP: Dr. Evelyn Chen | Case LTC-NY-2026-000174

Problem List

- Type 2 Diabetes Mellitus (dx 2016)
- Hypertension
- Hyperlipidemia
- Osteoarthritis – knees

Recent Visits / Notes

11/18/2025: Follow-up for diabetes and BP. Reports occasional dizziness and a fall in shower ~2 months ago; spouse assists with bathing when knee pain flares. Encouraged PT and home safety modifications. Tobacco: "quit years ago" but discussed nicotine replacement recently.

01/09/2026: Medication review. Metformin dose adjusted. Recommended repeat A1c in 3 months.

Physician Impression

Functional: Independent in most IADLs. Intermittent assistance with bathing due to knee pain and balance concerns. No cognitive impairment noted.

APS Completeness

NOTE: This APS is PARTIAL for demo (missing full chart, imaging, specialist notes).
